Dear Roisin

BRIGHT FUTURES EVENT – HILLHEAD HIGH SCHOOL MARCH 2007

This full day event targeted our S1 year group. The students were impressed when they entered the venue and were immediately treated like “business men/women”. This helped to set the atmosphere for the enterprise program ahead.

The presenters were extremely well organised and the activities were suited to the level of the students. Although challenging, the activities allowed all students to participate fully in making group decisions and meeting deadlines.

The presenters ensured that the youngsters were rewarded for their efforts and offered constructive feedback to encourage and motivate them.

Each session was clearly explained prior to the activity being assigned. The sessions were well thought out and the objectives clearly defined. At the end the responses were discussed and feedback given to each group.

The whole experience was informative and positive and the students left at the end of the day with a whole new insight into the world of work as well as valuable skills that would allow them to continue to develop into confident and inspired individuals.

Thanks again Roisin for a well-organised, informative day. I hope that you are as successful in Scotland as you have been in the rest of the UK. Please keep in touch.

Yours sincerely

Catherine Milligan(Mrs)
Enterprise Officer
